ISSUE SUMMARY

Revista de la Construcción. Journal of Construction
Volume 14, Number 3, Year 2015 (DECEMBER 2015).

9 ] IR thermography applies to the detection of solar panel
    Suárez, F. - Prendes, M. - Martín, A. - Higuera, A.

15 ] Mechanical properties of load bearing walls made of uruguayian hollow
    ceramic bricks
    Fontana, J.

22 ] Mechanical properties of mortars containing recycled ceramic as a fine
    aggregate replacement
    Cabrera, F. - Gómez, J. - Almaral, J. - Arredondo, S. - Corral, R.

30 ] Solar radiation in urban projects: financial analysis of a photovoltaic
    system for a habitation house in the metropolitan area of monterrey,
    nuevo leon, mexico.
    Leal, J. - Leal, C.

39 ] The wedge effect in the beam column joint of the Multipurpose
    Construction System for Cuba (SMAC system)
    Ruiz, L. - Martínez, J.

45 ] Study of studs shear connectors behaviour in composite beams with
    profiled steel sheeting
    Bonilla, J. - Bezerra, L. - Larrú, R. - Recarey, C. - Arrizabalaga, E.

53 ] Application of an advanced soil constitutive model to the study of railway
    vibrations in tunnels through 2D numerical models: a real case in Madrid
    (Spain)
    Fernández, J. - Medina, L.

62 ] Job satisfaction of construction professionals: case study in eastern Mexico
    Solís-Carcaño, R. - González-Fajardo, J. - Castillo-Gallegos, R.

70 ] Comparative study on porosity and permeability of conventional concrete
    and concrete with variable proportions of natural zeolite additions
    De la Cruz, J. - Del Campo, J. - Colorado, D.

77 ] Exterior wood-concrete slabs, experimentation and modeling of
    mechanical behavior. Part 2.
    Peña, A. - Fuentes, S. - Fournely, E. - Navarrete, B. - Pinto, H.
